

## CodeBook.md

This codebook details the transformations and work performed on cleaning up the data for analysis.

## Source Dataset

The source dataset is originally from the following location:

<http://archive.ics.uci.edu/ml/datasets/Human+Activity+Recognition+Using+Smartphones>

This is made available for Coursera students via an AWS CloudFront content delivery network, at the following location:

<https://d396qusza40orc.cloudfront.net/getdata%2Fprojectfiles%2FUCI%20HAR%20Dataset.zip>

This file was downloaded via the following R command into the dataset.zip file:

```
download.file("https://d396qusza40orc.cloudfront.net/getdata%2Fprojectfiles%2FUCI%20HAR%20Dataset.zip", "dataset.zip")
```
